

**Try the QVD Demo and discover how to manage and provide secure remote Desktops for your users.**

## Steps to try QVD in the cloud

In order to access to testing the Cloud environment you only need to:

1. Fill out the registration form
2. We then create your user's account with a validity of 30 days
3. We send you the access data to your email
4. You can then access to your personalized remote Desktop from any place and device
5. Remember to download your client

Our totally personalized Desktops will provide you with various user's experiences, such as the standardized, educational and developer one.
